PRODUCT DESCRIPTION

This procedure cart was specifically designed for patients and caregivers in mind. Defining features promote infection control, adaptability and durability. **STATCART** standard sizes and options in drawers and trays were made to be compatible with existing procedure carts on the market today. This compatibility creates conformity and allows hospitals to easily upgrade their cart without the need to update protocols. **STATCART** is quickly adaptable to meet the demands of different departments with Paladin Healthcare efficient Equipment Management Rail System. Due to the adaptability of its components, this system allows customers to find the optimal solution to answer specific clinical needs. Available with multiple lock options including a key lock, electronic keypad and electronic keypad with proximity card reader. The locking system can also be set up to offer dual credential unlocking. The cart is easily maneuvered around on plate-mounted swivel and locking casters.

This high quality storage system is manufactured and sourced in the US and can withstand any demanding healthcare environment.

KEY BENEFITS
